Project Brief:

The Wisconsin Department of Transportation (WisDOT) is underway with the reconstruction of WIS 20/83 (Main Street / 1st Street / Beck Drive) in Waterford. Work includes complete roadway and sidewalk reconstruction, as well as the reconstruction of the bridge over the Fox River.

What To Expect:

- Main Street - from Milwaukee Street to Jefferson Street - will remain open to traffic by being reconstructed in stages. This includes reconstructing the bridge over the Fox River in phases to help keep it open at all times. With this segment open, it will help connect motorists to nearby local streets on both sides of the river. No Parking will be in effect along this portion of the project.
- Main Street - from Jefferson Street to Buena Park Road - will be closed to through traffic and work is anticipated to begin in early March.
- 1st Street / Beck Drive - from Main Street to WIS 36 - will be closed to through traffic, and work is anticipated to begin in the spring.
- Access for local residents and businesses will be maintained throughout the project.
- The intersection of Buena Park Road and Main Street will remain open to traffic by being reconstructed in stages.
- Reconstruction will require periodic closures of side streets throughout the project. Notice will be provided for road closures with no two consecutive side streets being closed at the same time.
